Name(s)

Signature(s)

Date

1. INTERPRETATION & DEFINITIONS

1.1. Agreement: Consists of this Quotation, the Special Conditions (if any), and the Contract Terms & Conditions.

1.2. Retailer: Refers to Ares Energy Pty Ltd (ABN: 78 631 734 506).

1.3. Owner: Refers to the customer identified in the Quotation sheet.

1.4. STC: Small-scale Technology Certificate created under the Renewable Energy (Electricity) Act 2000 (Cth).

2. PERFORMANCE OBLIGATIONS

2.1. Retailer Responsibilities: The Retailer will design, supply, and arrange installation of the energy system in accordance with the specifications. Work will be carried out by a CEC/SAA accredited installer.

2.2. Owner Responsibilities: The Owner warrants that they are the property owner, the roof has structural integrity to support the system, and safe access to the premises will be provided on the scheduled installation date.

3. SITE CONDITIONS & PRICE ADJUSTMENTS

3.1. If unforeseen site conditions requiring structural modifications or electrical upgrades (e.g., switchboard replacements) are discovered on site, the Retailer will provide a written variation notice. If the Owner rejects the variation, the contract may be terminated with a full refund of deposit.

4. STCS & REBATES ASSIGNMENT

4.1. The Quotation price is calculated based on the assumption that the Owner assigns all rights to create STCs generated by the solar system to the Retailer.

4.2. If the STCs application is rejected due to Owner ineligibility, or the Owner chooses to retain ownership of the STCs, the Owner agrees to pay the value of the STC discount back to the Retailer within 10 business days of invoice.

5. REFUNDS AND COOLING-OFF PERIOD

5.1. The Owner is protected by the Australian Consumer Law. The Owner has a right to cancel this contract and receive a 100% refund of deposit within 10 business days of signing (Cooling-off period).

5.2. A full refund will also be issued if the system design is significantly altered from the Quotation, if installation cannot be completed within 6 weeks of target date, or if grid connection approval is refused by the distributor.

6. COMPLAINTS & DISPUTE RESOLUTION

6.1. Complaints may be submitted in writing via email to yashil@aresenergy.com.au or by calling 1300 717 583. We follow standard procedures outlined in AS ISO 10002-2006.

6.2. We will acknowledge receipt of your complaint within 2 business days and provide a full resolution timeline within 15 days.

7. WARRANTIES AND GUARANTEES

7.1. A 5 year workmanship warranty applies to the installation. Manufacturer warranties apply for solar panels (25 years), inverter (5/10 years), and battery (10 years) as per manufacturer warranty documents.

8. GRID CONNECTION & ACCREDITATION

8.1. Connection approvals will be submitted by Ares Energy to Western Power on behalf of the customer. Actual network limits and export parameters are determined solely by Western Power.

8.2. All installations comply with standard guidelines set by the Clean Energy Council and Solar Accreditation Australia.
